Oneida County
Board of Legislators
800 Park Avenue
Utica, New York 13501

FN 20 15-103
WAYS & MEANS

Honorable Members:

The Upper Mohawk Valley Auditorium Authority has a vacancy on their Board. **Dr. Harold Stalker** of Holland Patent has shown an interest in filling that vacancy and in fact, has been recommended by the Authority Chairman, Carl Annese (letter attached). Dr. Stalker has quite a correlation to the Auditorium and would like to be a part of the plans to move the Auditorium forward. This would be a **five-year term, commencing from January 1, 2015 through December 31, 2019.**

Therefore, based on the recommendation of Mr. Annese, I propose this appointment and ask for consideration by our Board of Legislators at the meeting of **March 11, 2015.**

Respectfully submitted,

GERALD J. FIORINI
CHAIRMAN OF THE BOARD

Cc: Mr. Annese
Dr. Stalker

Gerald J Fiorini
Chairman
Oneida County Board Of Legislators
1800 Bedford Street
Rome, New York 13440

Dear Chairman Fiorini:

I am writing you today in support of having Dr. Harold Stalker appointed to the Upper Mohawk Valley Memorial Auditorium Authority. Harold's interest in the building and its function in the community comes not from just our recent successes but from a life time of enjoying events in the building and his understanding of how the Auditorium acts as an economic engine and adds to the quality of life for the area. I feel with his outside the box thinking, his vast understanding of business and work ethics he will truly be an asset to serve on the Auditorium Authority.

Sincerely,

Carl A Annese
Chairman, UMVMAA

WAYS & MEANS

RECEIVED
FEB 19 2015
Oneida County Executive's Office

Dear Mr. Picente:

On Thursday, February 12, 2015, the Oneida County Finance Department received bids on various tax delinquent properties. Attached, please find a list of the highest offers received that evening. Initially we started with over 400 properties, and collection efforts have resulted in collecting over $2,300,000 in delinquent taxes.

We would also like to personally thank the county maintenance staff, the Sheriff's Department for providing security, and County Legislator Les Porter who generously donates his time and talent as auctioneer.

We recommend full Board consideration of the attached bids for approval and respectfully request that you forward same at your earliest opportunity.

Sincerely yours,

Anthony Carvelli
Commissioner of Finance

Re: Submission of the 2015-2016 FTA Section 5311 Consolidated Non-Urbanized Formula Grant Application, Authorizing Resolution and Notarization Form, Third Party Operating Agreement, and FTA FFY 2015 Certification and Assurances

Dear County Executive Picente:

The Federal Transit Administration provides funds to cover up to 50 percent of the operating deficits for public transportation systems providing scheduled mass transit services in the non-urbanized and rural areas of the country. The federal funds are distributed on a bi-annual basis through the Section 5311 Urbanized Areas Formula program which is administered by the New York State Department of Transportation (NYSDOT).

Oneida County is the sponsor of the rural transportation services in the County provided by Birnie Bus Tours (BBT). The New York State Department of Transportation (NYSDOT) recently announced $150,000 for 2015 and $165,000 for 2016 allocated to Oneida County to support these rural transit services. These amounts will be matched with New York State Operating Assistance funds and Birnie Bus Tours own funds, to cover operating expenses. There are no Oneida County funds involved in the 2015-2016 Section 5311 application.

The NYSDOT's Section 5311consolidated application includes both, operating assistance and capital investment grants. Based on bus replacement schedule and the 2014-18 Transportation Improvement Program, Oneida County will be purchasing four (4) 30 FT medium duty mid-size replacement buses with lifts for public transportation service in rural areas and one service truck. Projected total cost of this project is $380,000. The Federal Transit Administration (FTA) share would be 80% of the total costs of capital equipment, NYS Department of Transportation share is 10% and the remaining 10 % will be paid by the local public transit operator (BBT).

New to the 2015-2016 Section 5311 application is a section to request Mobility Management project funding. For this funding cycle, Oneida County will be applying for operating funding, on behalf of the Parkway Center, for their rural Mobility Management project. The Federal share is 80% for the project, State share 10%, and the Local share 10% will be paid by Parkway Center.

It is a Federal requirement that every applicant who intends to apply and receive Federal assistance must submit annual certifications and assurances prior to grant approval. By signing the attached FTA 2015 Certifications and Assurances, Oneida County affirms its commitment to

9.

comply with all relevant Federal statutes, regulations, executive orders, and administrative guidance for grant administration.

I request that you recommend to the Oneida County Board of Legislators for its consideration and approval the attached Resolution and Notarization Form authorizing you, as the Oneida County Executive, to file the Fiscal Year 2015-16 Section 5311 Consolidated Non-Urbanized Formula Grant application. I also request that you sign the signature pages of the Application, the Third Party Operating Agreement, and the FTA required Certification and Assurances for FFY 2015.

Dana Crisino, HOCTS Program Manager, and I would be pleased to discuss this matter with you and/or the Board at your convenience.

Sincerely,

John R. Kent, Jr.

RESOLUTION NO.

INTRODUCED BY:
2ND BY:

RE: RESOLUTION AUTHORIZING THE FILING OF CONSOLIDATED APPLICATION WITH THE NEW YORK STATE DEPARTMENT OF TRANSPORTATION FOR A FISCAL YEARS 2015-2016 FEDERAL SECTION 5311 GRANT FOR THE RURAL AND NONURBANIZED TRANSPORTATION SERVICE IN ONEIDA COUNTY

WHEREAS, The Oneida County Planning Department is submitting a request for a Consolidated Grant, for fiscal years 2015-16 funding to the New York State Department of Transportation, pursuant to Section 5311, Title 49 United States Code, for a projects to provide public mass transportation service for ***Non-Urbanized and Rural areas of Oneida County*** operated by Birnie Bus Tours Inc. (BBT), Rome NY, and capital investment funds to assist in the purchase of four replacement medium duty-mid size ADA equipped buses, one replacement service truck for BBT; and funding for the continuing of the Mobility Management project, operated by Parkway Center, Utica, NY for Rural areas of Oneida County; and

WHEREAS, The required ten percent (10%) local share of the capital investment project total costs will be provided by the transit operator; the State share is 10% and the Federal Share is 80%;and

WHEREAS, The County of Oneida and the State of New York have entered into a continuing Agreement for a six-year period which authorizes the undertaking of said Projects and payment of the Federal share; now, therefore, be it hereby

RESOLVED, That the Oneida County Executive is hereby authorized to act on behalf of Oneida County to sign the grant application and progress and complete the above named Project; and be it further

RESOLVED, That the Oneida County Executive is authorized to execute and file with the application the annual certifications and assurances and other documents the NYSDOT requires before awarding a grant or cooperative agreement; and it is further

RESOLVED, That the Oneida County Executive is authorized to sign any contracts or agreements between the County of Oneida and NYSDOT or Third Party subcontractor necessary to complete the public transportation project, subject to the approval of the Oneida County Attorney.

INDIRECT COST WORKSHEET
COST ALLOCATION PLAN

The purpose of a cost allocation plan is to summarize, in writing, the methods and procedures that an organization will use to allocate costs to various programs, grants, contracts and agreements. Only costs that are allowable, in accordance with the cost principles, will be allocated to benefiting the associated federal programs of this report.

Title 2 CFR part 225, also known as, OMB Circular A–87, "Cost Principles for State, Local, and Indian Tribal Governments," requires grantees who intend to seek payment for indirect costs to prepare a CAP or an Indirect Cost Rate Proposal. CAPs and/or Indirect Cost Rate Proposals must be approved by FTA or another cognizant Federal agency.

Definitions: *Indirect costs, as defined in 2 CFR part 225, are costs that are: (1) Incurred for a common or joint purpose benefiting more than one cost objective; (2) Not readily assignable to the cost objectives specifically benefited, without effort disproportionate to the results achieved; and (3) Originating in the grantee department as well as those incurred by other departments in supplying goods, services, and facilities to the grantee department.*

Examples of indirect costs are administrative, operational, and expenses of unit heads and their immediate staff. Principles and standards for determining costs applicable to grants and contracts with grantees or other State or local agencies are presented in 2 CFR part 225, and the appropriate Department of Health and Human Services (DHHS) publication, ASMB C–10.

Indirect Cost Pool

(Enter total cost of administrative services that are distributed across federal grant and contract programs, this number will be used for both budget years.)

Performing Unit	Unit Costs	Number of Units	Total Expenditures	Allocation Method	Percent (%) Transit Allocation	Total Services Costs Allocated to Transit

SECTION 5311 Mobility Management REQUEST FORM

Sponsor:	ONEIDA COUNTY	***Instructions*** *: Summarize the description, and estimated cost for each type of costs being requested. Enter into clear cells only, the rest of the document is locked from entry. All other cells are formula driven and will self calculate.*

Proposed Mobility Management Entity/Applicant Name:	ElderLife, Inc.
Contact Name & Title:	Kelly Walters, Executive Director
Address:	220 Memorial Parkway
	Utica, NY 13501
Phone:	315-223-3973
Fax:	315-223-3974
Email:	kwalters@theparkwaycenter.org

Please fill in below a narrative of the Mobility Management Project:

The goal of the Oneida and Herkimer County mobility management program is to provide education to individuals about the available transportation programs and services within the rural parts of the Counties that will enable them to meet their transportation basic needs. This includes access to medical appointments and employment as well as grocery stores and social activities. Further, this program will target senior citizens, low-income individuals, people with disabilities, communities of color and individuals with limited English proficiency. In person workshops, peer based travel training, a comprehensive website and printed materials will be utilized to help reach the intended audiences. These materials will be distributed at senior centers, independent living facilities, low-income housing facilities and places of employment.

SECTION 5311 COORDINATION EFFORTS WITH LOCALLY DEVELOPED, COORDINATED PUBLIC TRANSIT HUMAN SERVICES TRANSPORTATION PLANS

COORDINATION. Now, only one Federal Transit Administration (FTA) formula program—the Enhanced Mobility of Seniors and Individuals with Disabilities Program (Section 5310), require that projects must be derived from a locally developed, public transit-human services transportation plan. FTA requires public transit systems funded under the Section 5311 formula program to participate in the local planning process for coordinated public transit-human service transportation in those areas applying for funds under Sections 5310. To the extent that funding remains available in the previous FTA formula programs, Jobs Access & Reverse Commute (JARC) (Section 5316) and New Freedom (Section 5317), then projects under 5316 and 5317 must still be included in the Coordinated Plan.

Beyond the specific coordinated planning requirements listed above, Section 5311 also requires coordination with transportation assistance under other Federal programs. The Section 5311 program of projects must provide "the maximum feasible coordination of public transportation service [assisted under Section 5311] with transportation assisted by other Federal sources."

Describe how the municipality and/or the transit system are participating in the local planning process:

See Attachment "Exhibit1narrative1516"

What is the status of the current Plan and has an update occurred in your geographic area? If so, please submit an electronic copy.

See Attachment "Exhibit1narrative1516"

What efforts are made to coordinate services with human service or other agencies in your geographic area?

See Attachment "Exhibit1narrative1516"

AFFIRMATION OF APPLICANT

ONEIDA COUNTY	Anthony J. Picente Jr.
Applicant	*Name and Relationship of Authorized Representative*

BY SIGNING BELOW, on behalf of the Applicant, I declare that the Applicant has duly authorized me to make these Certifications and Assurances and bind the Applicant's compliance. Thus, the Applicant agrees to comply with all Federal statutes and regulations, and follow applicable Federal directives, and comply with the certifications and assurances as indicated at the link above, as applicable to each application it makes to the Federal Transit Administration (FTA) in Federal Fiscal Year 2015, irrespective of whether the individual that acted on his or her Applicant's behalf continues to represent the Applicant.

FTA intends that the certifications and assurances the Applicant selects, as representative of the certifications and assurances in this document, should apply, as provided, to each project for which the Applicant seeks now, or may later, seek FTA assistance during Federal Fiscal Year 2015

The Applicant affirms the truthfulness and accuracy of the certifications and assurances it has made in the statements submitted herein with this document and any other submission made to FTA, and acknowledges that the Program Fraud Civil Remedies Act of 1986,31 U.S.C. 3801 et seq., and implementing U.S. DOT regulations, "Program Fraud Civil Remedies," 49 CFR part 31 apply to any certification, assurance or submission made to FTA. The criminal fraud provisions of 18 U.S.C. 1001 apply to any certification, assurance, or submission made in connection with a Federal public transportation program authorized in 49 U.S.C. chapter 53 or any other statute.

In signing this document, I declare under penalties of perjury that the foregoing certifications and assurances, and any other statements made by me on behalf of the Applicant are true and correct.

Signature: _____ Date: _____

AFFIRMATION OF APPLICANT'S ATTORNEY

(Each Applicant for financial assistance and an active project must provide an Affirmation of Applicant's Attorney pertaining to legal capacity.)

ONEIDA COUNTY	Harris Samuels, Assistant County Attorney
Applicant	*Name of Attorney for Applicant*

As the undersigned Attorney for the above named Applicant, I hereby affirm to the Applicant that it has authority under State, local, or tribal government law, as applicable, to make and comply with the certifications and assurances as indicated at the link above. I further affirm that, in my opinion, the certifications and assurances have been legally made and constitute legal and binding obligations on the Applicant.

I further affirm to the Applicant that, to the best of my knowledge, there is no legislation or litigation pending or imminent that might adversely affect the validity of these certifications and assurances, or of the performance of the project.

Signature: _____ Date: _____

Print: _____

Attorney for Applicant

Each Applicant for FTA funding and each FTA Grantee with an active Capital or Formula Project must provide an Affirmation of Applicant's Attorney pertaining to the Applicant's legal capacity. The Applicant may enter its signature in lieu of the Attorney's signature, provided the Applicant has on file this Affirmation, signed by the attorney and dated this Federal fiscal year.

https://www.dot.ny.gov/divisions/policy-and-strategy/public-transportation/civilrights

If you answered no to question 4, you may develop your own or adopt NYSDOT's Civil Rights Statement and Complaint Procedures. Please contact your representative and visit (link).
(See page 2 of this exhibit for a sample statement.)

DBE Update

DBE Guidance Link: http://www.fta.dot.gov/civilrights/12989.html

Sub-recipients who receive less than $250,000 in combined capital and operating assistance within the same fiscal year contract period must submit annual reports on its DBE contracting activities.

Submit the above required reports to your Transit Liaison at: Public Transportation Bureau, 50 Wolf Road, POD 54, Albany, New York 12232

FTA reserves the right to require quarterly reports from a state or sub-recipient which fails to achieve its approved goal or which is implementing a major construction project.

At a minimum, the "good faith efforts" include:

1) *Identification of all contracting opportunities, if any, associated with the FTA assistance. The overall project budget might serve as the overall source document for this step.*
2) *Analysis of DBE availability (known and projected) to provide the products or services identified for contracting at either the prime or subcontract levels. This step includes making contact with organizations which may be expected to have information regarding availability including at a minimum, the Small Business Administration and the Minority Business Development Agency (U.S. Department of Commerce).*
3) *Establishment of contract goals for all FTA-assisted contracts based upon the availability analysis.*
4) *Use of good faith efforts to achieve contract goals established. Good faith efforts criteria are located in 49 CFR Part 26, Appendix A.*
5) *Use of DBE firms certified under the eligibility criteria of 49 CFR Part 26.*
6) *Recordkeeping and reporting sufficient for verification of steps taken and participation achieved.*

PUBLIC SAFETY

WAYS & MEANS

Reviewed and Approved for submittal to the Oneida County Board of Legislators by

Anthony J. Picente, Jr.
County Executive

Date 2/25/15

Dear County Executive Picente:

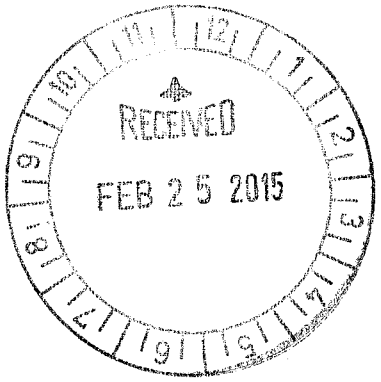
I recently learned from Deputy DPW Commissioner Mark Laramie, that the bid quotes came in higher than originally anticipated to rehabilitate the women's recreational yard in a wing of the original jail. This project is necessary to ensure the safety of the inmates housed in this area. The rehabilitation is also necessary due to the new federal regulations (PREA) which further restrict the housing of the juvenile inmate population from the general inmate population.

As a direct result of the bids being higher than originally anticipated, it is necessary to amend the capital project in order for this important rehabilitation to be completed. Fortunately; there are funds available in the Pay-As-You-Go reserve to cover the additional funding

I therefore request an amendment to **Capital Project H-458 – Sheriff – Comprehensive Correctional Facility Improvements** as follows:

	CURRENT	CHANGE	PROPOSED
Bonds	$ 332,311	$ 00	$ 332,311
Transfer From General	$ 409,000	$ 00	$ 409,000
Pay As You Go	$ 00	$ 75,000	$ 75,000
TOTAL.....	$ 741,311	$ 75,000	$ 816,311

I respectfully request that this matter be acted on at the **March 11, 2015** meeting due to the time constraints of this bidding process.



34

I would like to thank you for your time and diligent attention to this matter in advance. If you any questions, require clarification or seek additional information from me in order to help you make a decision regarding my request, please do not hesitate to contact me at any point in time.

Sincerely,

Robert M. Maciol
Oneida County Sheriff

Utica, New York 13501

Dear County Executive Picente:

Attached for your review and approval is correspondence from Kimberly Evans-Dame, Executive Director of Human Resources at Mohawk Valley Community College, requesting the addition of College Services Associate, Grade 21W (Step 1) at $28,720, to Oneida County's Classification Plan. Also attached is the job description which outlines the responsibilities and duties for this position. This position is in the Competitive class.

This position exists only at Mohawk Valley Community College, but will be included in the United Public Service Employee (UPSEU) White Collar contract. Therefore, Oneida County Board of Legislator approval is required.

If you concur, I respectfully request that this recommendation be forwarded to the Board of Legislators for their consideration.

Sincerely,

John P. Talerico
Commissioner of Personnel

MEMORANDUM

FEBRUARY 12, 2015

TO: Commissioner John Talerico
Oneida County Personnel

FROM: Kimberly Evans-Dame KED/rdw
Executive Director of Human Resources

SUBJECT: College Service Associate

As requested, I am writing to you to provide justification for the approval of a new UPSEU and Civil Service title for College Service Associate with Mohawk Valley Community College.

Over the past two (2) years the College has researched the new title of College Service Associate, which provides a broad range of administrative and student support in our five (5) Academic Centers and Student Affairs Departments. The College currently utilizes the title of Senior Office Specialist I, which as technology, College services, and student needs have changed, has struggled to meet the changing needs of the College in Academic and Student Affairs.

As administrative support, this position works collaboratively with all levels of the organization, while at the same time, meets the complex needs of our students, our customers.

It is imperative that the College invest more in these key front line positions to ensure that both administrative and student support needs are adequately met. Attached is the approved MVCC Board of Trustees resolution to create the College Service Associate position in conjunction with Oneida County Civil Service.

Thank you.

COLLEGE SERVICES ASSOCIATE

DISTINGUISHING FEATURES OF THE CLASS: The work involves providing support, guidance and referrals for students of Mohawk Valley Community College and for communicating and responding to Academic Center or Student Affairs Departmental customers as needed through established protocol. The incumbent also serves as a liaison between the Academic Center and the textbook and instructional material publishers. Work is performed under the direct supervision of the designated Center or Departmental supervisor or administrator. Supervision of others is not a function of this class. The incumbent performs related work as required.

TYPICAL WORK ACTIVITIES: (Illustrative only)

Advises and guides students on the appropriate College and SUNY processes and procedures;

Triages student requests and needs according to student development and educational needs;

Refers students to appropriate College services, faculty and staff, and advises and directs them accordingly;

Communicates and responds to Academic Center or Student Affairs Departmental customers through phone calls, e-mails, etc., from staff, faculty, parents, students and outside agencies;

Prepares correspondence and reports as necessary;

Uses applicable Academic Center or Student Affairs departmental and student software and systems with proficiency;

Assists Academic Centers in the procurement of textbooks and instructional materials;

Serves as liaison between the Academic Center and the textbook and instructional material publishers;

Serves as front line representative to students, advising them on questions and concerns regarding student status and records;

Maintains multiple Academic Center or Student Affairs Departmental calendars, files and records;

Works independently and collaboratively on Academic Center or Student Affairs Departmental projects;

Mentors student employees and coordinates their assignments;

Maintains and adheres to Academic Center or Student Affairs Departmental confidentiality, including FERPA (Family Educational Rights and Privacy Act of 1974) guidelines with regards to all communication;

continued...

TYPICAL WORK ACTIVITIES: (Illustrative only) continued

Assists College staff with student intake, registration, retention and completion efforts;

Assists Academic Centers in the processing of faculty assignments;

May assist with the orientation and training of new staff.

FULL PERFORMANCE KNOWLEDGE, SKILLS, ABILITIES AND PERSONAL CHARACTERISTICS:

Working knowledge of office practices and procedures; working knowledge of College's policies and procedures, academic requirements, campus resources, student life, and support services; skill in organizing, coordinating and prioritizing projects; excellent oral and written communication skills; excellent interpersonal/human relations skills; ability to work with a diverse population; ability to identify students' needs for services in order to make appropriate referrals; ability to operate a personal computer and to learn and use a variety of software packages; ability to maintain confidentiality.

MINIMUM QUALIFICATIONS: Either:

(A) Graduation from a regionally accredited or New York State registered college or university with a Bachelor's Degree **AND** one (1) year of experience working in a complex business setting, providing face-to-face multi-level customer service*, including advising and guiding customers; **OR**

(B) Graduation from a regionally accredited or New York State registered college or university with an Associate's Degree **AND** three (3) years of experience working in a complex business setting, providing face-to-face multi-level customer service*, including advising and guiding customers ; **OR**

(C) Graduation from high school or possession of a high school equivalency diploma and five (5) years of experience working in a complex business setting, providing face-to-face multi-level customer service*, including advising and guiding customers .

*Note: Entry-level cashier and call center experience, or experience with limited transactions, are not acceptable qualifications for this position.

Utica, New York 13501

WAYS & MEANS

Honorable Members:

During the process of preparing for the closing of the County's accounting records for 2014, deficit balances were identified in a number of employee fringe benefit accounts that will require transfers. The transfers are covered by surplus funds in the 2014 budgets of other related fringe accounts.

The shortages in the retirement accounts are due to the ever increasing NYS Retirement charge. Health Insurance shortages result from an evolving workforce and coverage changes that they may elect.

Due to the need to close the 2014 accounting records, I ask that these transfers be acted upon at the **March 11th meeting.** I therefore request your Board approval for the following **2014** fund transfers:

TO:

AA# A1165.810 - District Attorney, Retirement	$ 6,648.
AA# A1170.810 - Public Defender-Criminal, Retirement	19,319.

Re: Engineering Planning Grant EPG# 42484
Consolidated Funding Application (CFA) program 2014

WAYS & MEANS

Dear County Executive Picente:

Oneida County received a NYSDEC Engineering Planning Grant award under last year's Consolidated Funding Application (CFA) program. A planning and engineering report will be prepared that will build off the findings of a prior high-level conceptual review of "Neutralization Plant" to treat for microchip manufacturing rinse waters. This prior report was commissioned by Mohawk Valley EDGE and completed in 2013.

In short, over 75% of wastewater discharged from microchip fabrication is general rinse water that only require pH neutralization to be suitable for either re-use or direct discharge to surface water bodies, such as the Barge Canal. If these rinse waters could be delivered to a special facility for pH adjustment, significant flows could be diverted from the Oneida County Water Pollution Control Plant.

This report would further investigate the feasibility of a neutralization plant with regard to public ownership, user fees, siting, costs, etc. The report will also include next-level design considerations such as whether the neutralization plant would be established to treat only rinse waters destined for surface water discharge or all rinse waters, including a portion that would be returned to the microchip manufacturer for reuse.

The cost of the report is $62,500. Eighty percent (80%) of the cost of the report will be covered under the grant and the remaining 20% will be covered by EDGE. Oneida County will contract directly with EDGE to complete the report. A draft resolution is attached which allows me to execute the grant, approves contracting with EDGE to do the actual study and details that EDGE is responsible for the local match portion of the grant.

I would appreciate consideration of this matter by you and the Board of Legislators at your earliest possible convenience. I am available to meet with you or the Board to discuss this request and explain this in more detail. Thank you for your consideration in this matter.

RECEIVED
MAR 06 2015

Sincerely,
THE ONEIDA COUNTY DEPARTMENT OF WATER QUALITY AND WATER POLLUTION CONTROL

Steven P. Devan, P.E.
Commissioner

Steven J. DiMeo – Mohawk Valley EDGE

42.

WHEREAS, the County of Oneida was awarded an Engineering Planning Grant (EPG# 42484) through the 2014 Consolidated Funding Application (CFA) process by the New York State Department of Environmental Conservation and Environmental Facilities Corporation; and

WHEREAS, the Marcy NanaoCenter is a 450-acre greenfield site being developed for the semiconductor industry and is the largest shovel-ready semiconductor site in the world.

WHEREAS, the semiconductor fabrication is highly water intensive process and will require large amounts of fresh water for production resulting in a similar magnitudes of wastewater discharges; and

WHEREAS, the largest wastewater stream generated by a semiconductor fabricator is General Rinse Water (GRW); and

WHEREAS, GRW requires only pH neutralization, a simple treatment process, prior to reusing the GRW for semiconductor fabrication or to be permitted for direct discharge to surface waters; and

WHEREAS, the reuse of treated-GRW reduces the volume of fresh water that the semiconductor fabricator requires and the reuse and/or surface water discharge of treated-GRW reduces the longer-term capacity demands on the local sanitary sewer system and the Oneida County Water Pollution Control Plant; and

WHEREAS, the Engineering Planning Grant will provide eighty percent (80%) of the funding necessary to study the feasibility of constructing a Wastewater Treatment System (WWTS) facility near or at the Marcy NanoCenter site to treat GRW; and

WHEREAS, the twenty percent (20%) local match requirement relative to the cost of the study will be reimbursed to Oneida County from the Mohawk Valley Economic Development Growth Enterprise Corporation (EDGE); and

WHEREAS, the study may be used to leverage addition funding, in future CFA rounds, to design or construct a GRW WWTS facility; and

WHEREAS, 6 NYCRR Section 617.5 (Title 6 of the New York Code of Rules and Regulations) under the State Environmental Quality Review Act (SEQR) provides that certain actions identified in subdivision (c) of that section are not subject to environmental review under the Environmental Conservation Law;

NOW, THEREFORE, BE IT RESOLVED THAT Steven P. Devan, P.E., Commissioner Oneida County Department of Water Quality & Water Pollution Control (WQ&WPC), is authorized to execute a Grant Agreement with the NYS Environmental Facilities Corporation and any and all other contracts, documents and instruments necessary to bring about the Project and to fulfill the County's obligations under the Engineering Planning Grant Agreement.

BE IT FURTHER RESOLVED that County of Oneida authorizes and appropriates a minimum of 20% local match as required by the Engineering Planning Grant Program for the General Rinse Water Treatment Facility Feasibility Study (EPG #42484). Under the Engineering Planning Grant Program, this local match must be at least 20% of the total project cost. The maximum local share appropriated subject to any changes agreed to by the Commissioner of WQ&WPC shall not exceed $12,500 based upon a total

estimated maximum project cost of $62,500. The Commissioner of WQ&WPC may increase this local match through the use of in kind services without further approval from the Oneida County.

BE IT FURTHER RESOLVED THAT that the County of Oneida hereby determines that the proposed General Rinse Water Treatment Facility Feasibility Study is a Type II action in accordance with 6 NYCRR Section 617.5(c)(18) which states that "information collection including.. engineering studies...that do not commit the agency to undertake, fund or approve any Type I or Unlisted action" is not subject to review under 6 NYCRR Part 617.

Q_3656

Is the project included in a NY Rising Community Reconstruction Program plan or a NY Rising Countywide Resiliency Plan?

No

Q_3744

If the project is included in a NY Rising Community Reconstruction Program plan or a NY Rising Countywide Resiliency Plan, please indicate the planning committee name, project name, and location.

No Answer

Q_3762

Does your project directly address the needs of people in your region who are living in poverty and who seek resources for inclusion in the economic life of New York State?

No

Q_3763

How does your project seek to apply CFA funds for the purpose of eliminating barriers to skilled employment by poor people in your region, as identified by the Opportunity Agenda? Please describe any efforts to collaborate at the local or regional level (i.e. public, private, labor, philanthropic sectors).

The potential project discussed in this application will rely on close collaboration with the public and private sectors, namely the Oneida County Sewer District with the future semiconductor fabrication (FAB) manufacturer.

Q_3764

How does your project build workforce development programs, improve physical infrastructure, and/or establish social services that connect people living in poverty in your region with skilled employment, in correspondence with the economic revitalization priorities, distressed community targets, and the industry growth areas identified in the Opportunity Agenda and Strategic Plan?

The potential project discussed in this application is ancillary project to Marcy Nanocenter idenified as a "Key Driver" in the Region's Strategic Plan with regard to economic revitalization priorities. Jobs resulting from this project could potentially be created in the public sector and and may be especially adaptable to local Workforce Development Programs.

51.

Q 3766

Is this a Global NY Project?

No

Q_3768

If this is a Global NY Project, please describe how this project relates to the identified goals of your region's Global Marketing and Export Strategies as part of the Global NY initiative?

No Answer

Project Description

Q_575

Project Description. Concisely describe the project, indicating the location, what will be planned, designed, acquired, and/or constructed, the issues/opportunities to be addressed, and expected outcomes and deliverables. Additional details will be collected later in the application process.

Oneida County is expected to welcome the semiconductor fabrication (e.g., memory chips or microprocessors) industry to Marcy, New York as part of the "Nano Utica" intiative within a few short years. The semiconductor fabrication (FAB) process is highly water intensive and will require large amounts of fresh water (up to 6 MGD per FAB) which will incur similar magnitudes of wastewater discharge. The general rinse water (GRW) is the largest volume of wastewater generated (~75% to 80% of process wastewater volume) and is generated from rinsing processes using ultrapure water (UPW). The GRW if properly segregated from the other wastewater streams, requires only pH neutralization prior to reuse by the FAB or surface water discharge. Under this grant, the County will further investigate the feasibility of building a County-owned Wastewater Treatment System (WWTS) to treat GRW.

Q_930

Explain what makes your project a regional economic priority - for example creates jobs, economic investment, sustainability and community revitalization, government efficiency or consolidation etc.

New York State has invested 100's of millions of dollars into the Computer Chip Commercialization Center (Quad-C) at SUNYIT and the Marcy "Nanocenter" site, which is the future home of a FAB. Quad-C and Nanocenter along with State's success in Fishkill (IBM), Malta (Global Foundries), and its investment in nano-technology education and research at the SUNY College of Nanoscale Science and Engineering (CNSE) in Albany is beginning to transform the New York economy in ways not seen since the Erie Canal. Alain Kaloyeros, president/CEO of CNSE predicts that the new "Nano Canal" will eventually expand westward accross Upstate. As communities, such as greater Utica, prepare for a FAB, they are intensely evaluating the capacity of their water, sewer, and energy infrastructure and searching for ways, in partnership with the FAB, to build in sustainable features.

Q_929

Current State of Project Development (i.e. planning, preliminary engineering, final design, etc. You may enter N/A for non-project related applications)

The project is in the conceptual development and planning phase.

Q_975

Estimated Project Timeline: including project start/completion dates, estimates for design, permitting and construction or other major steps. (You may enter N/A for non-Project related applications)

52.

This application is for the planning phase of a project. The planning and engineering report will be started in 2015 and build off the findings of a prior high-level conceptual review. This report would further investigate the feasiblity of the WWTS with regard to public ownership, user fees, siting, costs, etc. The report will also include next-level design considerations such as whether the WWTS would be established to treat only GRW destined for surface water discharge or all the GRW including a portion that would be returned to the FAB for reuse. Existing information on the subject suggests that certain GRW, if properly segregated, may be better suited for return to the FAB and the FAB may desire to have more control of GRW destined for reuse/recycle. The report could potentially be completed simultanenous to discussion with a FAB committed to the Marcy Nanocenter site.

Q_976

Statement of Need

Conceptually a WWTS would neutralize the GRW to allow for recycle back to the FAB and/or discharge to the New York State Barge Canal (the Canal) through a new State Pollution Discharge Elimination System (SPDES) permitted outfall. The remaining industrial wastewaters generated by the FAB will be pre-treated by the manufacturer in its Central Utility Building (CUB) and discharged to the Oneida County Publically-Owned Treatment Works (POTW), also known as the Water Pollution Control Plant (WPCP). Therefore, the introduction of WWTS for GRW would reduce by 75-80% wastewater volumes that would be realized at the POTW. This would reduce stress on the POTW, by decreasing the volume of low-BOD wastewaters that it needs to treat, and would reserve capacity of the POTW during wet weather operations. The DEC has urged Oneida County to continue exploring the concept of a WWTS for the GRW.

Q_580

Provide a list of all federal, state, and local reviews, approvals, or permits needed or completed, including the dates when they are expected to be completed or were completed. If Not Applicable, indicate "NA".

The planning phase will not require permitting.

Q_2364

What is the status of State and/or Federal Environmental Review? If review of the project is underway or completed pursuant to the State Environmental Quality Review Act (SEQRA) or National Environmental Policy Act (NEPA), please indicate the lead agency (if applicable).

Not applicable

Q_1054

If National Environmental Policy Act (NEPA) Record of Decision has been issued, please explain (include date of Record of Decision).

Not applicable

Prior CFA Funding

Q_2362

If funding was awarded in prior CFA rounds, what were the CFA numbers for which funding was awarded? (separate multiple CFA numbers with commas)

Not applicable

Standard Question

53.

Engineering Planning Grant Program

Q_2622

Provide the population of the municipality applying for the grant. Cities and Villages should use municipal wide 2010 Census data. Towns and Counties should use the 2010 Census data for the area that is being served. In cases where the service area has not been established, provide an estimate for the envisioned service area.
http://www.dec.ny.gov/docs/water_pdf/censusinstructions3.pdf

106000

Q_582

Estimated Service Life

50

Q_1450

Will the proposed project result in the creation of construction jobs? If so, estimate the number of construction jobs to be created.

Enter zero if not applicable.

20

Q_1459

Will the proposed project directly or indirectly result in the creation of permanent jobs? If so, estimate the number of permanent full-time equivalent jobs that will be created.

Enter zero if not applicable.

2

Q_2193

What is the name of the surface waterbody that could be restored or protected as a result of the planning project? If known, provide the latitude and longitude of the discharge causing the water quality impairment.

Mohawk River, 43.124464, -75.266669

Q_2194

Has the municipality applied for or received funding from other State or Federal agencies for the completion of an engineering report for the proposed project?

No

Q_1324

Does the municipal system have a State Pollutant Discharge Elimination System (SPDES) permit?

Yes

Q_1325

If your municipal system has a State Pollutant Discharge Elimination System (SPDES) permit, list the permit number.

54.

0238376

Q_1374

If the municipal system discharges to a State Pollutant Discharge Elimination System (SPDES) permitted facility controlled by another municipal entity (i.e., satellite collection system) describe any water quality impacts associated with the discharge.

The applicant is Oneida County. The District's POTW (Water Pollution Contol Plant) is a County-owned faciity.

Q_1326

Is this planning project required by a State Pollutant Discharge Elimination System (SPDES) permit to protect the receiving water?

No

Q_1330

Is this planning project required by an Order on Consent executed between the NYS Department of Environmental Conservation and the municipality?

No

Q_1331

Is this planning project for the preparation of a Flow Management Plan as required by a State Pollutant Discharge Elimination System (SPDES) Permit?

No

Q_2307

Is the planning project identified in a Total Maximum Daily Load (TMDL)?

No

Q_2308

If the planning project is identified in a Total Maximum Daily Load (TMDL), please identify the TMDL.

No Answer

Q_1332

Is this project for the planning of an upgrade to an existing collection and/or treatment system?

No

Q_1333

Is the project for the planning of a new wastewater treatment and/or collection system to replace an existing municipal treatment and/or collection system?

No

Q_1376

Is this project for the planning of a treatment and/or collection system for a currently unsewered area?

55.

No

Q_1461

Is the planning project part of a regional wastewater improvement effort?

Yes

Q_3480

Is the project specifically identified in any of the following formally adopted plans? (check all that apply)

Other

Q_3481

If the project is specifically identified in a formally adopted plan, provide the plan's title and date of publication. If available, provide the plan's web address/URL. If the project is not identified in any plan, in the answer box please answer "Not in any plan."

The Mohawk Valley Sustainability Plan does not specifically mention this project. However, the plan advances conservation of water and watershed management goals which are in alignment with this potential project. Further, the potential project has a direct positive effect on the County's SSO Mitigation Project by reserving capacity at the POTW for Sauquoit Creek Pump Station flows.

Q_1463

Describe how the public and stakeholders who will be affected by, or who can advance the project, will be engaged in project planning and implementation.

Because the project relates directly to the Oneida County Sewer District (OCSD) Sanitary Sewer Overflow (SSO) Mitigation Project, the Steering Committee developed for the SSO mitigation work will be engaged in the planning of this project.

Q_1464

Describe how local officials are committed to this planning project and its future implementation.

The potential project presented in this application is a complimentary project to the OCSD SSO Mitigation Project, which is required by an executed Order on Consent. The OCSD SSO Mitigation Project has had broad support from the municipalities within the district, as well as the County Executive and County Legislature. In addition, as a project that would be completed in response to the development of the Marcy Nanocenter, the project has the greater interest of local and State economic development agencies and State government officials.

Q_370

Explain the strategy and resources for going forward after the project is complete; that is, for implementing grant-funded plans, developing and using grant-funded acquisitions, and maintaining grant-funded improvements.

If the project goes forward it will be supported by the Oneida County Department of Water Quality and Water Pollution Control.

Q_1434

Describe the administrative structures in place to administer the requested grant. Identify individuals who will be responsible for specific tasks, such as contract and grants administration, fiscal accounting, and project management. For those managers and professionals

56

already hired, describe their qualifications. Summarize consultant selection process and schedule, noting whether it is completed, underway or proposed. For future hires, describe qualifications sought and procurement/hiring method.

All administrative functions to admister the grant are in place under various Oneida County Departments (see http://www.ocgov.net/). Steven P. Devan, P.E., Commissioner - Oneida County Department of Water Quality & Water Pollution Control, will serve as the applicant's Project Manager. The consutant for the report preparation will be selected using a Qualification-Based Selection (QBS) process.

Q_2516

Is the municipality submitting more than one application for the New York State DEC/EFC Wastewater Infrastructure Engineering Planning Grant program? If so, please list the proposed projects in priority order, 1 - highest priority, 2 - second priority and 3 - third priority and so forth.

No, only one Engineering Planning Grant application is being submitted by Oneida County.

Smart Growth

Smart Growth Questions:The NYS Smart Growth Public Infrastructure Policy Act requires that a project meet the relevant smart growth criterion to the extent practicable. Please respond to the questions below regarding smart growth criteria.

Q_1059

Does the proposed project use, maintain, or improve existing infrastructure? Y/N/Not Relevant. Please explain all responses.

The project is for new infrastruture but the project would also miminize the impacts of Marcy Nanocenter flows on the existing Oneida County POTW.

Q_1060

Is the proposed project located in a municipal center? Y/N/Not Relevant. Please explain all responses.

The project would be sited in the Town of Marcy, close Marcy Nanocenter or the Marcy business district along River Road.

Q_1061

Is the proposed project located in a developed area or an area designated for concentrated infill development in a municipally approved comprehensive land use plan, local waterfront revitalization plan and/or brownfield opportunity area plan? Y/N/Not Relevant. Please explain all responses.

The project is not yet sited but it is anticipated to be adjacent to or near the Marcy Nanocenter or just south toward the Marcy business district (River Road Commercial Business Corridor).

Q_1062

Will the proposed project protect, preserve and enhance the State's resources, including agricultural land, forests, surface and groundwater, air quality, recreation and open space, scenic areas, and significant historic and archeological resources? Y/N/Not Relevant. Please explain all responses.

The potential project promotes water reuse and recycle at Marcy Nanocenter and wastewater treatment efficiency, and likely better effluent results, at the POTW in the long term (with Marcy Nanocenter on line). Therefore, the project benefits the local water source, Hinckley Reservoir, from a conservation perspective and would result in a net water quality benefit to the Mohawk River. The project speaks to

57.

Strategy 4, Increase Spatial Efficiency, of the **MVREDC Regional Plan**. The project embraces these components of the Strategy 4: (1) Make key investments that improve critical infrastructure assets and promote sustainability and (2) Use of the region's natural resources in an environmentally sound manner.

Q_1063

Will the proposed project foster mixed land uses and compact development, downtown revitalization, Brownfield redevelopment, the enhancement of beauty in public spaces, the diversity and affordability of housing in proximity to places of employment, recreation and commercial development and the integration of all income and age groups? Y/N/Not Relevant. Please explain all responses.

Not relavent.

Q_1064

Will the proposed project provide mobility through transportation choices including improved public transportation and reduced automobile dependency?Y/N/Not Relevant. Please explain all responses.

Not Relavant.

Q_1065

Will the proposed project involve coordination between state and local government and inter-municipal and regional planning? Y/N/Not Relevant. Please explain all responses.

Yes. The project requires coordination between the Oneida County Sewer District, the Town of Marcy, NYSDEC, and potentially CNSE among others.

Q_1066

Will the proposed project involve participation in community based planning and collaboration? Y/N/Not Relevant. Please explain all responses.

Yes. To the extent that the project is viewed as a complimentary project to the OCSD SSO Mitigation Project, it would be reviewed with the Steering Committee. Further, the project would require SEQRA review and Marcy Planning Board approval.

Q_1067

Will the proposed project ensure predictability in building and land use codes? Y/N/Not Relevant. Please explain all responses.

Not Relavent.

Q_1068

Will the proposed project promote sustainability by strengthening existing and creating new communities which reduce greenhouse gas emissions and do not compromise the needs of future generations, by among other means encouraging broad based public involvement in developing and implementing a community plan and ensuring the governance structure is adequate to sustain its implementation? Y/N/Not Relevant. Please explain all responses.

The potential project builds in some sustainable practices, at Marcy Nanocenter, by dividing wastewater streams (between contaminated wastewater streams and GRW) and promoting GRW reuse and recycle at the FAB or surface water discharge to the canal. Surface water discharge of pH-nuetralized GRW is anticipated to have a net water quality benefit (vs. POTW treatment) by improving wastewater treatment efficiency at the POTW, and likely better effluent results (i.e. the POTW will not have to treat a large-volume of weak (low-BOD) wastewater. Therefore, the project benefits the local water source, Hinckley Reservoir, from a conservation perspective and would result in a net water quality benefit to the Mohawk River. Further, reducing influent flows at the POTW would also likely result in a net energy savings, if they GRW WWTS can be designed with minimal pumping

58

and enegy needs. The governance structure, being the County government, is in place to sustain its implementation.

Certification

General Certifications

Q_1037

By entering your name in the box below, you certify and agree that you are authorized on behalf of the applicant and its governing body to commit the applicant to comply with the requirements of Article 15-A of the New York State Executive Law: Participation By Minority Group Members and Women With Respect To State Contracts by providing opportunities for Minority-owned Business Enterprise (MBE)/Woman-owned Business Enterprise (WBE) participation. You further certify that the applicant will maintain such records and take such actions necessary to demonstrate such compliance throughout the completion of the project.

New York State DEC/EFC Wastewater Infrastructure Engineering Planning Grant

Description

The New York State Department of Environmental Conservation (DEC), in conjunction with the New York State Environmental Facilities Corporation (EFC), will offer grants to municipalities to help pay for the initial planning of eligible Clean Water State Revolving Fund (CWSRF) water quality projects. Up to $2 million has been made available for this program.

The Wastewater Infrastructure Engineering Planning Grant will assist municipalities with a Median Household Income (MHI) of $65,000 or less with the engineering and planning costs of CWSRF-eligible water quality projects. Grants of up to $50,000[1] (with a 20% required local match) will be provided to finance activities including engineering and/or consultant fees for engineering and planning services for the production of an engineering report.

The ultimate goal of this wastewater infrastructure engineering planning grant program is to assist needy communities with funding necessary to initiate a planning process and follow-up implementation plan to address local water quality problems. Successful applicants can use the engineering report funded by the grant when seeking financing through the CWSRF program or other financial means to further pursue the identified solution.

Eligible Types of Applicants

- Municipalities as defined in 21 NYCRR 2602 New York State Clean Water Revolving Fund Regulations; and
- Median household income (MHI) of the municipality is equal to or less than $65,000 according to the United States Census 2010, American Community Survey, http://factfinder2.census.gov/faces/nav/jsf/pages/index.xhtml.

Eligible Activities

Funding can be used by municipalities for the preparation of an engineering report[2] and planning activities to determine the scope of water quality issues. Priority will be given to municipalities proposing planning projects with a documented water quality impairment:

- required by an executed Order on Consent;
- required by a SPDES permit;
- upgrade or replace an existing wastewater system;

[1] See the "Award Criteria, Limitations" section of this document for details of funding amounts.
[2] See the "Key Definitions" section of this document for specific information on the required contents of the engineering report.

61,

- construct a wastewater treatment and/or collection system for an unsewered area.
- identified in a Total Maximum Daily Load (TMDL)

Smart Growth alternative(s) and green infrastructure alternative(s) must be considered and documented in the engineering report.

In accordance with the laws, rules and regulations governing the CWSRF, projects eligible under Section 212 (Publically Owned Treatment Works) of the federal Clean Water Act must be publicly-owned.

The following minimum alternatives need to be considered for projects with ***no existing wastewater infrastructure***:

- decentralized systems;
- new sewers and connection to regional wastewater treatment facility; and
- new sewers and a wastewater treatment facility.

The following minimum alternatives need to be considered for projects with ***existing wastewater infrastructure***:

- rebuilding existing wastewater infrastructure; and
- connecting to regional wastewater treatment facility.

To obtain the funds for the design and construction of their project, applicants must complete reviews under both the State Environmental Quality Review (SEQR) Act and State Environmental Review Process (SERP). Applicants also must have their projects reviewed by the New York State Office of Parks and Historic Preservation's State Historic Preservation Office (SHPO).

Ineligible Activities

- Projects that do not lead to the restoration or protection of a surface waterbody.
- Projects and scope listed on the 2014 CWSRF Intended Use Plan Annual Project Priority List.
- Design and construction costs for the wastewater treatment and/or collection systems.

Selection Criteria

Projects will be scored and selected based on the following criteria.

	Points Assigned	Criteria
Regional Economic Development Priority	20 points	Alignment with the goals and priorities of its Regional Economic Development Council (REDC).
Performance Measures	40 points	Severity of existing water quality impairments.
Strategies	24 points	Proposed project is required by a Consent Order, SPDES permit or TMDL.
Vision	12 points	Planning project is identified in a formally adopted plan and has both public support and a committed local leadership.
Agency Priority	4 points	Alignment with DEC and EFC priorities

62.

Additional consideration will be given to projects supporting the NY Rising Community Reconstruction Program, NY Rising Countywide Resiliency Plan and/or advance a Regional Economic Development Council Opportunity Agenda strategy.

Award Criteria Details

Eligible Area, City, County Population Limits or Population Target Types:

- Applicants from every region of the state are encouraged to apply.
- Municipalities as defined in 21 NYCRR 2602 New York State Clean Water Revolving Fund Regulations; and
- Median household income (MHI) of the municipality is equal to or less than $65,000 according to the United States Census 2010, American Community Survey, http://factfinder2.census.gov/faces/nav/jsf/pages/index.xhtml.

Limitations:

- Grant awards will be limited to:
  - $50,000 per project for municipalities with a population of 50,000 or greater according to the United States Census 2010, American Community Survey, http://factfinder2.census.gov/faces/nav/jsf/pages/index.xhtml.
  - $30,000 per project for municipalities with a population of less than 50,000 according to the United States Census 2010, American Community Survey, http://factfinder2.census.gov/faces/nav/jsf/pages/index.xhtml.
- All grants require a local match equal to 20% of the total project cost.

  Example: Grant Award: $50,000
  Local match: $12,500
  Total Cost Engineering Planning Grant: $62,500
- The Departments may be able to fund only one project per municipality in this Round. If an applicant is submitting multiple applications for their municipality, they are asked to prioritize their projects.

Long Range Goals:

Successful applicants will use the engineering report completed under this grant when seeking financing through the CWSRF program or other financial means to further pursue the recommended solution.

Project Term Completion Dates:

Grant recipients must submit a complete engineering report within 9 months of their grant agreement being executed.

Matching Fund Requirements/Deadlines:

- The grant will provide for up to 80% of the total eligible project costs set forth in the application. The applicant is required to provide the balance of the funds needed to complete the initial planning undertaken with the grant.
- A minimum 20% local match is required. Match can include cash and/or in-kind services. Other grants may not be used for local match. The applicant should identify the source of the match at the time that the application is submitted.

G3

Grant Payment: The grant will be disbursed in two payments. The municipality will be eligible to receive $15,000, as an advance payment once the grant agreement is executed. The remainder of the grant award will be paid when the municipality's engineering report and planning has been completed and approved by DEC and EFC.

Successful Applicant Requirements

Documentation: Recipients must provide documentation of the following requirements before entering into a grant agreement for the planning project.

- Legal right to own, operate and maintain the project for the duration of its useful life.
- Compliance with the New York State Smart Growth Infrastructure Policy Act of 2010.
- Compliance with the New York State's Minority/Woman-owned Business Enterprises (M/WBE) requirements. (http://www.nysefc.org/Default.aspx?tabid=485)
- Detailed final budget and plan of finance including all third party funding agreements, and satisfaction of the minimum 20% local match requirement. (http://www.nysefc.org/Default.aspx?tabid=485)
- Local resolution authorizing and obligating local match funds. Match can include cash and/or in-kind services. Other grants may not be used for local match. Sample resolution language: http://www.nysefc.org/Default.aspx?tabid=485
- Designation of an Authorized Representative for the project.
- Executed Engineering Agreement, including Minority/Women Owned Business Enterprises (M/WBE) language. An MWBE Work Plan and Utilization Plan will be required if the Engineering Agreement exceeds $25,000.
- Completion of Environmental Quality Review (SEQR) Act. Please refer to EFC's "Environmental Review Guidance" on EFC's website for more information on the SEQR processes.
- Acknowledgement of project review by the New York State Office of Parks and Historic Preservation's State Historic Preservation Office (SHPO).

Key Definitions

Engineering Report - means the document or documents, which determines the technical and economic feasibility of a CWSRF eligible project. [Reference: 21 NYCRR 2602.2(a)(22) New York State Clean Water Revolving Fund Regulations]

Engineering reports should be prepared in accordance with requirements identified in *Recommended Standards for Wastewater Facilities* (2004 edition), commonly known as the 10-State Standards (http://10statesstandards.com/waterstandards.html) or TR-16 Guides for the Design of Wastewater Treatment Works prepared by New England Interstate Water Pollution Control Commission (http://www.neiwpcc.org/tr16guides.asp). All engineering reports should include the following sections.

Engineering Report Outline

1. ***Project Planning***
    a. Location
    b. Environmental Resources Present
    c. Population Trends
    d. Community Engagement
2. ***Existing Facilities***
    a. Location Map

b. History
c. Condition of Existing Facilities
d. Financial Status of any Existing Facilities
e. Water/Energy/Waste Audits

3. ***Need for Project***
   a. Health, Sanitation and Security
   b. Aging Infrastructure
   c. Reasonable Growth
4. ***Alternative Considered***
   a. Description
   b. Design Criteria
   c. Map
   d. Environmental Impacts
   e. Land Requirements
   f. Potential Construction Problems
   g. Sustainability Considerations
      i. Water and Energy Efficiency
      ii. Green Infrastructure
      iii. Other
   h. Cost Estimates
5. ***Selection of an Alternative***
   a. Life Cycle Cost Analysis
   b. Smart Growth Analysis
   c. Non-Monetary Factors
6. ***Proposed Project (Recommended Alternative)***
   a. Preliminary Project Design
   b. Project Schedule
   c. Permit Requirements
   d. Sustainability Considerations
      i. Water and Energy Efficiency
      ii. Green Infrastructure
      iii. Other
   e. Total Project Cost Estimate (Engineer's Opinion of Probable Cost)
   f. Annual Operating Budget
      i. Income
      ii. Annual O&M Costs
      iii. Debt Repayment
      iv. Reserves
   g. Debt Service Reserve
   h. Short-lived Asset Reserve
7. ***Conclusion and Recommendations***

In-Kind Services - means services performed by capable and qualified employees of the recipient for technical and administrative force account that are directly related to and in support of the development of the Engineering Report and are deemed reasonable by the Environmental Facilities Corporation.

65.

Municipality - means any county, city, town, village, district corporation, county or town improvement district, Indian reservation wholly within New York State, any public benefit corporation or public authority established pursuant to the laws of New York or any agency of New York State which is empowered to construct and operate a project, or any two or more of the foregoing which are acting jointly in connection with a project. [Reference: 21 NYCRR 2602.2(a)(49) New York State Clean Water Revolving Fund Regulations]

Planning - means the orderly development of a project concept from the original statement of need or purpose through the evaluation of alternatives to a final recommendation on a course of action and measures to implement the selected alternative, including completion of the environmental review process. [Reference: 21 NYCRR 2602.2(a)(51) New York State Clean Water Revolving Fund Regulations]

ONEIDA COUNTY BOARD OF LEGISLATORS

Gerald J. Fiorini, Chairman • 800 Park Avenue • Utica, New York 13501
Work Phone: 798-5900 • Home Phone: 337-9045

FN 20 15 - 077

WAYS & MEANS

February 6, 2015

Board of Legislators
800 Park Ave.
Utica, NY 13501

Honorable Members:

I am writing in regards to Local Law Introductory "B" regulating the tethering of dogs in Oneida County, which has been included in the March 11, 2015 Resolution Packet. This proposed Local Law is currently tabled in Ways and Means, and after meeting with the Utica and Rome Humane Societies, Spring Farm Cares, and CNYSPCA, I am requesting that the Ways and Means Committee remove the docket from the table and amend the current version. My amendments will be provided to the Committee on Board Day for their consideration.

To ensure that this law takes effect as soon as possible, I am attaching a message of necessity to this Local Law pending passage by Ways and Means, and I am requesting that the waiting period be waived for passage by this Board at the March 11, 2015 board meeting.

Thank you in advance.

Sincerely,

Gerald J. Fiorini

Gerald J. Fiorini
Chairman of the Board

67.
