

Appendix B

Comparison of Oneida County 2003 TAP Survey Results to the Results of the National 2001 Youth Risk Behavior Surveillance (YRBS) Survey for 9th and 11th Grades

The Oneida County 2003 TAP Survey included 28 questions that are identical to questions asked in the National 2001 Youth Risk Behavior Surveillance (YRBS) Survey that is administered by the Centers for Disease Control and Prevention. The tables in Appendix B present the response rate of these 28 questions for the 9th and 11th graders combined together and then separately for both the Oneida County 2003 TAP Survey and the National 2001 YRBS Survey. The reason the focus is on 9th and 11th graders is because high school students, grades 9th through 12th, participate in the YRBS Survey, while 7th, 9th and 11th graders take the TAP Survey. In order to ensure that we look at a like population of students, we compared the two grades common to both surveys.

For each question there is a table with six columns. Starting from the left, the first two columns compare the response rates (in percentages) of the 9th and 11th graders combined together for the Oneida County 2003 TAP Survey and the National 2001 YRBS Survey. The next two columns compare response rates for 9th graders, and then the last two makes the comparison for the 11th graders.

In addition, many of these 28 questions concern risk behaviours, such as smoking, drinking, drug use, and sexual activity. For these questions, the response rate is first broken down for the total population and then is subsequently broken down for the population involved in that risk behavior. For the first break down the question is phrased as it appears on the survey instrument, in the second person; for the subsequent break down the question begins as follows - "Amongst those that smoke, drink, use drugs, etc." and then is rephrased in the third person.

Tobacco, Alcohol and Other Drug Use...

22. How old were you when you smoked a whole cigarette for the first time?

| | 9th & 11th Grade Combined | | 9th Grade Only | | 11th Grade Only | |
