I. OVERVIEW, INTRODUCTION AND INSTRUCTIONS

A. ABOUT: STAFF SERGEANT PARKER GORDON FOX SUICIDE PREVENTION GRANT PROGRAM (SSG Fox SPGP)

The Staff Sergeant Parker Gordon Fox Suicide Prevention Grant Program (SSG Fox SPGP) honors Veteran Parker Gordon Fox, who joined the Army in 2014 and was a sniper instructor at the U.S. Army Infantry School at Ft. Benning, GA. Known for a life of generosity and kindness to others in need, SSG Fox died by suicide on July 21, 2020, at the age of 25. The SSG Fox SPGP through the Office of Mental Health and Suicide Prevention (OMHSP) of the Veterans Health Administration (VHA) provides financial assistance through a 3-year community-based grant program to eligible entities to provide, or coordinate the provision of, suicide prevention services to eligible Veterans and their families. The goal of SSG Fox SPGP is to reduce Veteran suicide by reaching eligible Veterans at risk of suicide in their communities and connecting them to services. In alignment with the Department of Veterans Affairs' (VA) National Strategy for Preventing Veteran Suicide (2018) and the White House Strategy for Reducing Military and Veteran Suicide (2021), this grant program will assist in further implementing a public health approach that blends community-based prevention with evidence-based clinical strategies through community efforts. This grant program is part of the Commander John Scott Hannon Veterans Mental Health Care Improvement Act of 2019 (Publ. Law 116-171), enacted on October 17, 2020. Congress has authorized \$174 million for the SSG Fox SPGP. Information on the Staff Sergeant Parker Gordon Fox Suicide Prevention Grant and the VA's Strategy for Preventing Veteran Suicide can be found at <https://www.mentalhealth.va.gov/ssgfox-grants/>.

As the grantee of the SSG Fox SPGP, Oneida County through its Department of Mental Health (hereinafter "the County") has developed a Veteran Suicide Prevention Program which will oversee the identification of eligible Veterans at risk of suicide, and their families, and the connection of these individuals to suicide prevention services. The goal of this RFP is to develop a Veteran Suicide Prevention Program in Oneida County which will assist in further implementing a public health approach to veteran suicide prevention that blends community-based prevention with evidence-based strategies through community efforts. For the purposes of the SSP Fox Suicide Prevention Grant these suicide prevention services will include:

- i. Outreach to identify those at risk of suicide
- ii. Baseline mental health screening for risk
- iii. Education on suicide risk and prevention to families and communities
- iv. When necessary, provision of emergency treatment clinical services
- v. Case management services
- vi. Peer support services
- vii. VA benefits assistance for eligible individuals and their families
- viii. Assistance with obtaining and coordinating other benefits provided by the federal, state or local governments, or an eligible entity
- ix. Assistance with emergent needs relating to health care services, daily living services, personal financial planning and counseling, transportation services,

- temporary income support services, fiduciary and representative payee services, legal services to assist the eligible individual with issues that may contribute to the risk of suicide, and child care
- x. Other services necessary for improving the mental health status and well-being and reducing the suicide risk of eligible individuals and their families as VA determines appropriate

There are 14,879 veterans in Oneida County, 10,158 of which are not considered “unique” in that they have not received treatment at a VA Healthcare facility. The SSG Fox SPSP Grant emphasizes identifying eligible individuals who are not enrolled in VA health care.

The County is the recipient of an initial grant of \$750,000 and intends to apply for available grant renewals for each of the following two years (\$750,000 for each renewal year) for a total of \$2,250,000. It is important to note that there may be additional funding after these three (3) years as determined by the United States Department of Veterans Affairs. Over the course of the three years it is the goal of the County to identify and assess the eligible individuals who are not receiving VA health care services and attempt to connect those individuals at risk of suicide to suicide prevention services.

The County, as the Grantee, was required to submit a budget for the first year which has been approved by the VA SSG Fox SPGP team. Generally, the County budget approved by the VA team for the first year \$750,000 grant provided for 77.58% for Personnel (including \$11,184.68 set aside for Oneida County Department of Veteran’s Affairs personnel); 6.93% for Temporary Income Support Assistance, e.g., for transportation or child care in order to increase income after all other mainstream income supports and financial assistance have been exhausted (in accordance with developed guidelines); 15% for Other Non Personnel expenditures, e.g., materials, equipment, staff training and VA travel (including \$12,000 set aside for County, Applicant and subcontractor staff trainings and \$15,000 set aside for County, Applicant and subcontractor travel); and, 0.5% set aside for Administrative expenditures.

The Applicant will be responsible for verifying and documenting the eligibility of all participants prior to providing SSG Fox SPGP assistance. The Applicant, on behalf of the County of Oneida, may be found out of compliance with SSG Fox SPGP program regulations during VA monitoring if they exhibit insufficient case file documentation. It is important for programs to develop local policies and procedures to ensure appropriate documentation is obtained and included in SSG Fox SPGP participants' files.

There are three aspects to SSG Fox SPGP eligibility: 1) Veteran/military status 2) screening to verify some risk for suicide 3) and at minimum low risk score on the Columbia-Suicide Severity Rating Scale (C-SSRS).

- 1) **Veteran/Military Status:** The Applicant must develop policies and procedures that ensure appropriate documentation is obtained and included in participant's file. An eligible individual is a person at risk. See *Eligible Individual* definition in Commander John Scott Hannon Veterans Mental Health Care Improvement Act of 2019, Title II – Suicide Prevention, §201(q)(4). Public Law 116-171 – Oct. 17, 2020.
- 2) **Eligibility Suicide Screening and Evaluation.** Eligible individuals must be at risk for suicide defined as exposure to, or the existence of, any of the following factors, to any degree that increase the risk of suicidal ideations and/or behaviors:
 - a) Health risk factors, including mental health challenges, substance use disorder, serious or chronic health conditions or pain, and traumatic brain injury,
 - b) Environmental risk factors, including prolonged stress, stressful life events, unemployment, homelessness, recent loss, and legal or financial challenges; and
 - c) Historical risk factors, including previous suicide attempts, family history of suicide, and history of abuse, neglect, or trauma, including military sexual trauma.
- 3) **Columbia Suicide Severity Rating Scale Screener (C-SSRS) risk score.** An individual must screen at minimum as low risk to be eligible for the program.

It is VA's goal that SSG Fox SPGP providers can make an eligibility determination and enroll eligible individuals the same day they are screened. Additional information on these requirements for eligibility and programmatic process can be found in the SSG Fox SPGP Program Guide. In addition, further information can be found in the attached *Program Process Map*, Addendum A.

b. Outreach to Identify Those at Risk

Performing outreach is a critical component of the Suicide Prevention Program. Outreach services must be customized to the target populations being served by the Program. Applicant must use its best efforts to ensure that eligible individuals, including those at high risk of suicide or who are not receiving health care or other services furnished by the VA,

and their families are identified, engaged and offered suicide prevention services. The Applicant will be required to enter data on outreach within the data management tool provided by the VA. As part of providing outreach, the Program should:

- 1) Develop relationships with local social services and public benefit agencies, and faith-based and community-based organizations which serve at-risk individuals.
- 2) Develop relationships with local VA facilities, including Vet Centers and Veterans Benefit Administration (VBA) offices;
- 3) Host local informational events; and
- 4) Participate in local SP coalition events, community health fairs or similar events

The Applicant will be expected to leverage the following sources to identify eligible individuals in the area:

- 1) Local VA facilities, including Veteran Benefits Administration (VBA). Regional Offices and Vet Centers.
- 2) DoD Resources (e.g., Transition Assistance Program);
- 3) VA Medical Center Post 9/11 Military 2 VA (M2VA) Case Management Programs
- 4) State agencies
- 5) Organizations engaged with local or state SP Coalitions
- 6) Local government; and
- 7) Community agencies or groups including but not limited to:
 - a) Mental health and social service agencies
 - b) Churches and other places of worship
 - c) Legal aid organizations
 - d) Food/clothing shelters; hot meals programs
 - e) Community social action groups such as Veteran/military interest groups
 - f) Welfare offices

c. Baseline Mental Health Assessment:

The Applicant will be required to provide or coordinate the provision of a baseline mental health screening to all participants. This baseline mental health screening ensures that participants' mental health needs can be properly determined, and that suicide prevention services can be further tailored to meet the individual's needs. Such screening tools have been identified by the VA and are all brief, simple, publicly available and well-validated instruments. Further details and programmatic process information can be found in the SSG Fox SPGP Program Guide. Screening tools to be used are:

- 1) Socio-Economic Status (SES): This instrument will be used by the VA to determine whether there was change financial stress, annual income, level of education and employment status over the enrollment period in program, the assessment will be administered at the beginning of the program enrollment and at exit.
- 2) Patient Health Questionnaire (PHQ-9): This instrument will be used by the VA to determine whether there is a change in mood related symptoms over the

enrollment period in program, the assessment will be administered at the beginning of the program enrollment and at exit.

3) Short Warwick Edinburgh Mental Wellbeing Scale (SWEMWS): This instrument will be used by the VA to determine whether there was overall well-being of participant over the enrollment period in program, the assessment will be administered at the beginning of the program enrollment and at exit.

4) Generalized Self-Efficacy Scale: This instrument will be used by the VA to determine whether there was change in Self Efficacy over the enrollment period in program, the assessment will be administered at the beginning of the program enrollment and at exit.

5) Interpersonal Support Evaluation List (ISEL-12): This instrument will be used by the VA to determine whether there was change in social supports over the enrollment period in program, the assessment will be administered at the beginning of the program enrollment and at exit.

d. Lethal Means and Gatekeeper Training

Gatekeeper training generally refers to programs that seek to develop individuals' knowledge, attitudes, and skills to prevent suicide. Gatekeeper training is an educational course designed to teach clinical and non-clinical professionals or gatekeepers the warning signs of a suicide crisis and how to respond and refer individuals for care.

e. Education and Training Other

The Applicant will be required to educate communities, veterans and families on how to identify those at risk of suicide, how and when to make referrals for care and the types of suicide prevention resources available within the area. Education can include gatekeeper training, lethal means safety training, or specific education programs that assist with identification, assessment, or prevention of suicide. Education is important because learning the signs of suicide risk, how to reduce access to lethal means and to connect those at risk of suicide to care can improve understanding of suicide and has the potential to reduce suicide. The County of Oneida (as the grantee) will be required to train annually in VA S.A.V.E., a Suicide Prevention training from the VA. The Applicant may also be encouraged by the County of Oneida to attend this training, but this is to be determined (TBD).

f. Clinical Emergency Services

The SSG Fox SPGP reimburses for provision of clinical services for emergency treatment as they are defined in the Program Guide only.

g. Case Management

The Applicant will be required to provide, or coordinate for, the provision of case management services that include, at minimum:

- 1) Performing a careful assessment of participants and developing and monitoring case plans in coordination with a formal assessment of suicide prevention services needed, including necessary follow-up activities, to ensure that the participant's needs are adequately addressed.
- 2) Establishing linkages with appropriate agencies and service providers in the area, especially VA providers, to help participants obtain needed suicide prevention services.
- 3) Providing referrals to participants and related activities (such as scheduling appointments for participants) to help participants obtain needed suicide

prevention services, such as medical, social, and educational assistance or other suicide prevention services to address participants' identified needs and goals;

- 4) Deciding how resources and services are allocated to participants on the basis of need.
- 5) Educating participants on issues, including, but not limited to, suicide prevention services availability and participant rights; and,

Other activities, as approved by VA, to serve the comprehensive needs of participants for the purpose of reducing suicide risk.

2. Describe how Applicant and community partner(s) with the assistance of OCDMH will connect participants to the following services pursuant to SSG Fox SPGP rules, regulations and guidelines:

- a. **Peer Support Specialist**

The Applicant will be required to provide, or coordinate, for the provision of peer support services to help participants understand what resources and supports are available in their area for suicide prevention. Peer support specialists serve as role models and a resource to assist participants with their mental health recovery. Peer support specialists function as interdisciplinary team members, assisting physicians and other professional and non-professional personnel in a rehabilitation treatment program. Peer support services must be provided by Veterans trained in peer support with similar lived experiences related to suicide or mental health. Veterans providing such peer services to participants must meet the requirements of 38 U.S.C. 7402(b)(13). Specific information on qualified Peer Specialists and related requirements can be found in the SSG Fox SPGP Program Guide.

- b. **Assistance in Obtaining VA Benefits**

As part of participant intake, the Applicant should determine whether the eligible individual is already receiving services from VA. If the eligible individual is already receiving services, the grantee's assessment should focus on what additional services the participant may need, want and be eligible for, and refer the participant to the appropriate VA office for assistance. If the participant is not already receiving services from VA, the Program should make the participant aware of the services for which s/he may be eligible and offer to refer the participant to the nearest VA facility. Programs should develop relationships with local VA facilities, State Veterans Affairs Offices and Veterans Service Organizations (VSOs). Additional information regarding this requirement may be found in the SSG Fox SPGP Program Guide. Potential VA benefits and services may include, but are not limited to:

1. Vocational and rehabilitation counseling;
2. Employment and training service;
3. Educational assistance;
4. Housing assistance; and
5. Health care services, including mental health

- c. **Assistance in Obtaining and Coordinating Other Public Benefits and Assistance with Emergent Needs**

Applicant will be expected to assist participants in accessing both public benefits and mainstream community resources. These terms are defined broadly to include healthcare

(medical, mental health, and substance abuse services) and daily living services, affordable housing, employment and vocational services, income support, legal services, transportation, personal financial planning and credit counseling, VA fiduciary and representative payee services, and childcare. Programs should strive to strengthen each participant's ties to external resources to the extent that they will be maintained long after SSG Fox SPGP is available to the participant. However, it is important to remember that all referrals are voluntary. Further explanation of each service is listed below.

- 1) *Connection to healthcare and daily living services:* SSG Fox SPGP eligible individuals should be supported to access healthcare and daily living services from their local VA Medical Center and other healthcare providers. This includes primary care, mental health treatment, substance abuse services, daily living services (also known as home care), and other specialty health care that an individual participant needs and chooses to utilize. Programs must cultivate strong relationships with their points of contacts at local VA Medical Centers and/or VA community-based outpatient clinic and utilize those relationships to make and monitor referrals. Some individuals may be ineligible for or decline VA healthcare. Accordingly, Programs must also identify non-VA healthcare resources. Programs must also be able to assist participants in applying for Medicaid and/or subsidized insurance through local healthcare exchanges created by the Affordable Care Act (ACA).
- 2) *Connections to legal services:* Applicant is strongly encouraged to connect participants to legal services to assist an eligible individual with issues that may contribute to the risk of suicide, including issues that interfere with the eligible individual's ability to obtain or retain permanent housing, cover basic needs such as food, transportation, medical care, and issues that affect the eligible individual's employability and financial security (such as debt, credit problems, and the lack of a driver's license). Authorized legal services do not include legal assistance with criminal matters nor matters in which the eligible individual is taking or has taken any adversarial legal action against the United States (that is, the Federal government). Authorized legal services also do not include legal assistance with matters in which the United States (that is, the Federal government) is prosecuting an eligible individual. Additional information on legal service models can be found in the SSG Fox SPGP Program Guide.
- 3) *Connections to transportation:* SSG Fox SPGP participants should be supported to connect with transportation on an as-needed basis, for stability purposes when the participant lacks access to a car or public transportation. Where available, Applicants should help participants take advantage of subsidized transportation and free bus passes in their jurisdiction. These are typically offered for low-income people who have disabilities or are elderly. Participants should also be connected to local shuttle services to VA Medical Centers which typically leave from Veteran Service Organization sites. Further information on transportation can be found in the SSG Fox SPGP Program Guide.
- 4) *Connections to personal financial planning and credit counseling services:* Where appropriate and desired, SSG Fox SPGP participants should be supported to connect with services that improve their day-to-day finances and help achieve long-term budgeting and financial goals. These services may include individualized counseling or workshops that teach critical skills such as budgeting, setting up bank accounts,

managing money in the long term, accessing a free credit report, and repairing credit. Applicants should seek services for participants who need and want to resolve poor credit to reduce the negative influence such histories have on tenant selection and employment decisions. Community action agencies, adult education community centers, and non-profit workforce development organizations often provide financial education services and that may be helpful.

- 5) *Connections to employment and vocational services*: Where appropriate, SSG Fox SPGP participants should be supported to connect with services that foster workforce participation, job readiness, and job opportunities with the aim of maximizing income and thereby increasing financial stability and overall well-being. Further information can be found in the SSG Fox SPGP Program Guide.
- 6) *Connections to VA fiduciary and representative payee services*: SSG Fox SPGP participants should be supported with the option of enlisting a VA fiduciary or representative payee arrangement on an as need basis. These arrangements may help participants who cannot manage their own financial affairs due to injury, disability, or age. Instead, a participant may choose to designate a VA fiduciary or representative payee to manage their Veteran Benefits Administration benefits, Social Security Disability Insurance, Supplementary Security Income, or other income on their behalf. The designated party then uses the individual's income to consistently pay for current and foreseeable needs. Applicants should help participants who may need and want to explore the availability of this option.
- 7) *Connections to childcare services*: SSG Fox SPGP participants should be supported to access childcare when needed to support efforts to reduce suicide risk factors (e.g. employment, healthcare, education, etc). Childcare may be especially useful to participants engaged in a busy schedule, job interviews or in the initial weeks of new employment that has yet to yield sufficient savings to pay for childcare. To meet this need, Applicants should research the availability of subsidized or free childcare for low-income households in their area. Ideally, Applicants will find emergency childcare services that could bridge participants through a period of instability until more long-term, affordable arrangements can be secured.
- 8) *Eligible temporary income support assistance (TISA)*: Applicants may choose to provide TISA to eligible individuals to assist with increasing their income. Funds should be distributed from the Applicant to a third-party vendor, not directly to the eligible individual. TISA should only be used as direct financial assistance when all other resources are accessed. SSG Fox SPGP financial and non-financial assistance should be delivered in a progressive assistance approach. Applicant should focus on the most critical threats to the participant's stability in providing the "minimum necessary" level of assistance, keeping in mind that SSG Fox SPGP funds for TISA are limited. Providing TISA to one participant will limit the total number of participants Applicant will be able to serve. All participants should be referred to mainstream income supports and financial assistance sources for which they may qualify. By leveraging and utilizing public sources of emergency and ongoing financial assistance, Applicants can minimize the TISA payments made with SSG Fox SPGP funds. Wherever possible, Applicants should attempt to connect participants to community resources, to obtain comparable assistance. Applicants should develop internal guidelines for the payment of TISA and ensure that

participants receiving TISA as part of an individualized services plan are informed of such guidelines. For suicide prevention, eligible forms of temporary income support assistance are:

- a) Transportation (public transportation or car repair)
- b) General Suicide Prevention funds
- c) Childcare
- d) Other (requires approval from a SSG Fox SPGP Grants Manager)

D. PROGRAM OPERATIONS

Describe how the Applicant will develop program operations pursuant to 38 CFR Part 78 and 2 CFR Part 200. Please include a discussion of the following:

1. Participant Agreements:

Prior to providing SSG Fox SPGP assistance to a participant, Applicant will enter into a written agreement between it and/or its community partner and each participant. This agreement describes the SSG Fox SPGP and any conditions or restrictions on the receipt of suicide prevention services by the participant. Agreements should not require sobriety, income limits, participation in suicide prevention services or other unnecessary requirements as a condition of assistance. Participant agreements and conditions should be fully disclosed to potential participants and acknowledged in writing by both parties. Program agreements are to be developed by the Applicant, in collaboration with the County of Oneida.

2. Participant Fees:

Applicants may not charge a fee to participants for providing suicide prevention services that are funded using funds from SSG Fox SPGP. Note: this prohibition does not prevent Applicants from requiring participants to cost share, with Applicant, any expenses for which temporary income support assistance is provided.

3. Participant Safety and Critical Incident Reports:

A critical goal of the SSG Fox SPGP is to ensure the safety of all participant and Applicant and community partner staff. Applicants will be required to develop a comprehensive plan to maintain the safety of participants and staff and the confidentiality of the program's participants and their records. In developing a plan, VA recommends that Applicants:

- a. Establish goals and objectives that reduce and eliminate accidents, injuries, and illnesses related to administering suicide prevention services to participants.
- b. Develop plans and procedures for evaluating the safety program's effectiveness, both at the grantee service location office and in the field.
- c. Develop priorities for remedying the identified factors which cause accidents, injuries and illnesses.
- d. Ensure that participant records are secured with all such information password protected.

- e. Ensure that all staff, students, and volunteers receive initial and annual training on how to respond to critical incidents; and
- f. Develop a clear written procedure for following-up on any incidents that may occur to ensure that the program evaluates how they responded and to ensure any party involved was connected to any services needed.

If Applicant becomes aware of a death, crime, or health or safety issue related to the participant, the must report the issue to the appropriate authorities, as well as the County. Applicants are expected to comply with all applicable laws. If a participant's actions pose a health or safety risk to that participant or another person, the Applicant must notify the police or another appropriate authority. The SSG Fox SPGP team requires Applicant to only submit the most serious of critical incidents, such as suicides, homicides, allegations of criminal activity by agency and subcontractor staff, and all incidents that receive media attention. Applicant should notify the VA SSG Fox SPGP team about any reportable critical incident as soon as possible, but within a timeframe not to exceed 48 hours after the grantee has been made aware of the situation. The SSG Fox SPGP critical incident process is used for the purpose of reporting serious incidents to VA leadership. If Applicant is uncertain as to whether the critical incident requires SSG Fox SPGP team notification, they should contact the SSG Fox SPGP Grants Manager.

4. Notification to Participants:

Before providing SSG FOX SPGP assistance to a participant, Applicant must notify the participant that the suicide prevention services and assistance offered will be paid for, in whole or in part, by VA, through a federal grant award. Applicant must review the range of suicide prevention services available to the participant through the program and any conditions or restriction of receipt of suicide prevention services by the participant. To ensure that participants receiving suicide prevention services under the SSG Fox SPGP are receiving quality services, the Applicant must give a VA-designated satisfaction survey to each participant within 30 days of the participant's pending exit from the grantee's program.

5. Conflict of Interest:

Applicant and its subcontractors will be required to get signed conflict of interest statements from their respective Board members. Please review the SSG Fox SPGP Program Guide for information.

6. Confidentiality:

Applicant are required to maintain confidentiality of records kept on participants. The County and the Applicant must comply with all applicable federal and local laws to assure the confidentiality and security of participants' physical and electronic records. Furthermore, Applicant must ensure the security of records such that computer systems are equipped with technologies to prevent unauthorized use (such as encryption, strong passwords, and biometrics). Applicant must keep participant information private and it is required to obtain signed releases of information for any third-party that the Applicant speaks to on the client's behalf when discussing personal information such as name and other details. The Applicant will be required to develop a policy and procedure for

protecting client information which will be reviewed annually by the SSG Fox SPGP Team. Under no circumstances should participants' personally identifiable information (such as names, social security numbers, dates of birth) be sent to anyone else over unencrypted email. For further information, please review the SSG Fox SPGP Program Guide.

7. Case File Documentation:

Grantees are responsible for maintaining case files for each participant. This information must also be reflected in the VA Data Collection Tool. Applicant will be required to provide the County with the information required for the VA Data Collection Tool.

8. Releasing Participants from Program:

The Applicant will work with the County to develop reasonable requirements and a procedure for participant dismissals or termination due to serious program rule infractions on the part of the participant or family. Please review the SSG Fox SPGP Program Guide for information.

9. Grievance and Appeals Policy and Procedures:

Applicant is required to establish an internal policy for processing and reviewing participant grievances and complaints. This policy should be presented to the participant upon enrollment for services. Applicant is also required to establish a policy that allows for participant appeals to a rejection for services. The appeals policy requires the agency to provide the participant with the reason for rejection and the right to appeal it to agency supervisory staff. The policy must also include a review process and a timeframe established for such review. The appeals policy should be presented to the participant at the initial intake appointment.

10. Community Partners and Applicant Management

The County will assess Applicant performance at least quarterly and conduct an on site monitoring review at least annually. Each Applicant must maintain their own policies and procedures.

E. REPORTING REQUIREMENTS

Describe how the Applicant will support and work with the County to meet the Reporting Requirements of the Grant pursuant to 38 CFR 78.145 and the goal for outcome data. Describe how data will be collected and reported in the following areas:

1. **Grant Management System:** The SSG Fox SPGP team utilizes an online grants management solution, (GMS), that allows for a streamlined and standardized process for managing all SSG Fox SPGP grant data, from application receipt, review, award, grant oversight, and grant completion. In an effort to automate paper-driven tasks, to improve methods for tracking grantee compliance with guidelines and regulatory expectations, and to allow grantees more time applying their expertise to service provision, all grantees are required to utilize the GMS solution for submitting grant requirements. Furthermore, grantees can track the history of submissions to the SSG Fox SPGP. The majority of SSG Fox SPGP

grantee reporting requirements and grant administration procedures, such as maintenance of points of contacts, are conducted within GMS. Applicant will be required to communicate with and provide information to the County for entry to the GMS.

2. **Data Collection Tool:** The Applicant will use the Behavioral Health Lab (BHL) Touch and Onboarding application to capture information required for reporting on outreach activities, for verifying eligibility which includes the psycho-social risk factors screening and the C-SSRS, capturing the demographics and other data required as part of the intake process, administering the five mental health assessments, reporting regular service attendance at the participant level and reporting any updates of a participant's status or disposition in the program. The Applicant will also use the Onboarding application to retrieve a unique identifier for each applicant or participant that is engaged in the program. No social security numbers, participant names, birth dates or other Personally Identifiable Information (PII) with the exception of an email and phone number will be asked for by the data collection tool. These two pieces of information will be stored completely separately from any sensitive mental health data. OCDMH or the Applicant will identify at least one user (the same user) for the BHL Touch and Onboarding application. This user (i.e., primary user) will also have access to the dashboards that will provide visualizations and ongoing progress for that grantee in the program. A backup person (secondary user) is also recommended in the event that the primary user is unable to complete these data collection and reporting activities, as well as monitoring responsibilities. Both the primary user and secondary user will be required to participate in all training related to the BHL Touch, Onboarding application and dashboards.
3. **Program Exits:** The Applicant can utilize the SSG Fox SPGP Exit Checklist within the data collection tool to ensure the appropriate exit steps have been carried out once it is determined a participant is going to be exited. For participants who may be discharged for reasons other than program completion (e.g., incarceration, relocation, etc.), the Applicant should develop internal policies and procedures for exiting participants. In particular, the program should utilize the SSG Fox SPGP Program Exit Checklist or similar checklist and have clear expectations that staff will make numerous attempts, via various methods, to contact a person who has stopped responding to program requests to meet with the grantee.
4. **Participant Satisfaction Surveys:** Pursuant to 38 CFR 78.95, grantees must provide each SSG Fox SPGP participant with a satisfaction survey that can be submitted by the participant via the BHL Touch, within 30 days prior to such participant's pending exit date from the Applicant's program. Survey distribution is required according to the SSG Fox SPGP Final Rule and essential to assess Veteran perceptions of services received, to help determine potential actions to increase Veteran satisfaction and to reduce operational burden, where possible. It is important that Applicant review the results with its teams and make any necessary adjustments to their program based on the feedback. The Applicant will

electronically distribute the SSG Fox SPGP satisfaction survey to participants using the customized web link. The Applicant is required to provide evidence of survey registration. It is recommended that a copy of the registration online confirmation page be maintained in the case files as evidence of Veteran completion of the survey. In situations where the Applicant is actively assisting a participant in transitioning to another location or program, Applicant should provide the participant with a satisfaction survey as close to exit as possible. In situations where a participant exits the program unexpectedly, Applicant should attempt a follow-up contact with the participant to provide them with the survey. Ideally, Veterans will complete this anonymous survey using smart phones, tablets, or computers. Please note that if the Veteran participant does not have an email address, the SSG Fox SPGP team strongly encourages the Applicant to work with the Veteran to establish an email account.

F. AUDITING

The County as Grantee of the SSG Fox SPSG is subject to the Single Audit provisions of 2 CFR Part 200. Describe how the Applicant will assist the County with any audits conducted pursuant to 38 CFR Part 78 and/or 2 CFR Part 200. Applicant should state on its own behalf and on behalf of its collaborators its ability to support the County in the event of an audit is conducted. If the Applicant has conducted a Single Audit pursuant 2 CFR Part 200, provide the most recent Single Audit package reported.

Describe how Applicant and its collaborators will develop in collaboration with the County a formal process for auditing, reporting and data collection which will provide access to case files and the following forms:

1. Intake Screening
2. Mental Health Screenings (Electronic Record)
3. Release(s) of Information
4. Grievance Procedures with Participant Signature
5. Case Notes
6. Program Agreement
7. Critical Incident Report
8. Participant Satisfaction Survey (Electronic Record)

IV. SCORING & EVALUATION

The Oneida County Department of Mental Health, Oneida County Veterans Service Department, and the Community Services Board have reviewed and approved the **Scoring & Evaluation Rubric** listed below (**EXHIBIT D**). Please carefully review all criteria for details on scoring and evaluation of submissions.

A. EVALUATION OF FULL PROPOSALS

All full proposals will be reviewed and scored by a Technical Review Committee made up of members from the Oneida County Department of Mental Health, Oneida County Veterans Service Department, and the Community Services Board. Proposals will be judged based on the

Applicant’s ability to meet criteria identified in the Scoring & Evaluation Rubric (**EXHIBIT D**). Oneida County reserves the right to make such investigations as it deems necessary to determine the ability of the Applicant to provide services meeting a satisfactory level of performance in accordance with Oneida County's requirements. Points will be assigned based on the Applicant’s clear demonstration of their abilities to complete the proposed work, apply appropriate methods to complete the work, create innovative/improvement solutions, sustain program beyond demonstration period, and a host of other relevant criteria (listed below). Applicants may be required to submit additional written information to the Technical Review Committee to clarify statements made in their proposal so that the Technical Review Committee is able to better understand and compare the Applicants' capabilities.

Proposals will be reviewed, rated and ranked in order of highest score based on the following point system:

| Scoring Criteria: | | |

Once an Applicant has determined the participant has identified suicide risk factors, the SSG fox SPGP program must screen the individual's degree of risk through the administration of the Columbia Suicide Severity Rating Scale Screener (C-SSRS). An individual must screen at minimum as low risk to be eligible for the program. **Regardless of current C-SSRS results, grantees must always alert SPCs to former service members (not family members) who have had a suicidal behavior within the past 90 days or are suspected to have died by suicide (any timeframe).**

- e. Notification to Participant
 - i. Before providing SSG FOX SPGP assistance to a participant, Applicant must notify the participant that the suicide prevention services and assistance offered will be paid for, in whole or in part, by VA, through a federal grant award. Applicant must review the range of suicide prevention services available to the participant through the SSG Fox SPGP program and any conditions or restriction of receipt of suicide prevention services by the participant. To ensure that participants receiving suicide prevention services under the SSG Fox SPGP program are receiving quality services, the Applicant must give a VA-designated satisfaction survey to each participant within 30 days of the participant's pending exit from the SSG Fox SPGP program.

Participant agreements and conditions should be fully disclosed to potential participants and acknowledged in writing by both parties.
