NETWORK ADMINISTRATOR II

DISTINGUISHING FEATURES OF THE CLASS: This is a technical position which involves responsibility for participating in the maintenance and operation of computer networks. The work involves analyzing hardware and software network problems, testing and installing networking equipment, and building network file servers. The incumbent may research new products and coordinating workshops, as well as implement desktop, notebook computers and peripherals on the network. The employee reports directly to, and works under, the general supervision of a Network Administrator I or higher-level staff member, with leeway allowed for the exercise of independent judgment in carrying out the details of the work. Supervision is not normally a responsibility of this class. The incumbent performs related work as required.

TYPICAL WORK ACTIVITIES: (Illustrative Only)

Administers micro-computer networks and is part of the communications and connectivity team;
Repairs, tests and installs computers on a free-standing or local area network basis, including wiring to connect monitors and printers;
Installs and tests network operating systems;
Implements recommendations for system upgrades;
Assigns computer access passwords to employees;
Receives classroom and on-the-job training in computer hardware (PC and Mac), software, network topologies, network operating systems, and network management;
Installs and troubleshoots software packages;
Provides limited management of operating systems, such as, Novell, Microsoft Server, Microsoft NT, and Microsoft Windows;
Installs E-mail and Internet capabilities on a network;
Installs multimedia components of a computer (ie: CD Rom and sound-cards);
Makes site visits with higher-level technicians to: troubleshoot a technical problem, and provides installation of hardware and software on large-scale projects;
Becomes familiar with, and provides support for, the hardware inventory and delivery, work order process, and technical planning process;
May be required to lift at least 50 lbs;
Daily travel may be required.

FULL PERFORMANCE KNOWLEDGE, SKILLS, ABILITIES AND PERSONAL CHARACTERISTICS: Good knowledge of computers, operating systems, networks, Internet, E-mail, and some software packages; good know-ledge of the logistical operations of computers and data communications devices; good knowledge of Local Area Network administration, computer literacy, ability to communicate orally and in writing; good problem solving skills; ability to enter data into a computer; ability to establish and maintain effective working relationships; initiative; good judgment; physical ability commensurate with position.
