STUDENT INFORMATION & INSTRUCTIONAL SPECIALIST

DISTINGUISHING FEATURES OF THE CLASS: This is a professional position in the Mohawk Regional Information Center. The incumbent in the position develops data reporting through the collection, analysis and use of student performance information. The incumbent assists staff in interpreting the data, proposing solutions to data collection difficulties and coordinating the delivery of student data to component school districts. The Student Information and Instructional Specialist directly reports to the Team Leader. Supervision of others is not a responsibility of this class. The incumbent performs related work as required.

TYPICAL WORK ACTIVITIES: (Illustrative Only)

Coordinates the delivery of student data service to component school districts;
Acts as a liaison with the RIC and users of other student data systems to collect, analyze, and use student performance data;
Assists school district staff and building principals in interpreting data;
Proposes solutions for district problem solving in the collection, management, and analysis of student performance data;
Assists school district staff and building principals in collection of data for specialized data projects;
Assists Superintendent of designated District Data Coordinator in completing data verification activities related to the SIRS Reporting process in the NYSED Business Portal;
Performs other duties as assigned by the Team Leader.

FULL PERFORMANCE KNOWLEDGE, SKILLS, ABILITIES, AND PERSONAL CHARACTERISTICS: Good knowledge of computer skills including: word processing, database, spreadsheet, and statistical analysis; knowledge of state data reporting requirements for school districts and BOCES; ability to write clear precise reports; ability to analyze and interpret student data; ability to facilitate district planning of student data; ability to work as a member of a team; creative thinker and problem solver.

MINIMUM QUALIFICATIONS: Either:

- (A) Graduation from a regionally accredited or New York State registered college or university with a Bachelor's Degree, including or supplemented by twelve (12) semester credit hours in the fields of computer science, computer technology, data processing, mathematics, statistics or a closely related field; **OR**
- (B) Graduation from a regionally accredited or New York State registered college with an Associate's Degree, including or supplemented by six (6) semester credit hours in the fields of computer science, computer technology, data processing, mathematics, statistics or a closely related field **AND** two (2) years of experience in the collection of educational program data.
